LET OUR GRADUATES INSPIRE YOU

Find out how our programmes have helped them
get ahead, both professionally and personally

"Through this Diploma Conversion programme, I was able to broaden my facilities management knowledge, especially on Town Council setup, including their by-laws and financial operation procedures. I enjoyed learning with the lecturer and getting to know classmates from the same industry."

- Chua Chee Kiong, Diploma (Conversion) in Township Management

"As I am self-employed I needed to learn the skills of doing marketing materials or designs that can help me tell a story on what my services can do. This course helped me to express my story better and also gave me the confidence to do up my own marketing materials instead of looking for a service which was providing that. The instructor's breakdown of Adobe software and our hands-on practice during the course, made it easier to learn them."

- Kunasekaran, Diploma (Conversion) in Digital Media Design
